CAREER OBJECTIVE

To secure a dynamic role in information technology where I can leverage my technical expertise and problem-solving abilities to drive success for an innovative organization.

EDUCATION

BS in Information Technology (2022 - PRESENT)

Western Mindanao State University, Zamboanga City

Ateneo De Zamboanga University Senior High School (2018-2020)

La Purisima St, 7000 Zamboanga City

PERSONAL SKILLS

- Effective Communicator
- Good Time Management
- Highly Structured and Detail-Oriented
- Adaptive Learner
- Proven Ability to Excel Autonomously and Collaboratively.

TECHNICAL SKILLS

Programming Languages: JavaScript, PHP, C++, React

Web Development: HTML5, CSS3,

Frameworks & Libraries: React, Django, Arduino/ESP32 Core

Mobile App Development: React Native, Android Studio

Databases & Data Tools: MySQL, Firebase

Other Tools & Platforms: VS Code, Hostinger cPanel, Linux CLI, Git/Github, Figma

PRE-PROFESSIONAL EXPERIENCE

Project name	**PAW FEEDS: An IoT-Based Automated Dog Food Dispenser with an Android Application for Scheduling and Real-Time Monitoring**
Subject	Capstone Project
Link:	https://github.com/enchi244/pawfeeds-app.git
Description	An intelligent IoT solution designed to automate and monitor pet feeding using live camera. The system utilizes load cells for precise food weighing and RFID for pet identification, syncing data to a realtime dashboard for remote monitoring and scheduling.
Target Platform	Mobile
Role	Programmer / IoT Developer
Technologies	C++ (Arduino IDE), ESP32 and ESP32-CAMERA, React, Firebase, Tailwind CSS, HX711 Load Cell, ISO11784 RFID

Project name	WorkSphere
Subject	Software Engineering
Link:	https://github.com/enchi244/worksphere.git
Description	Workforce Optimization and Safety Compliance System
Target Platform	Web-based (Windows)
Role	Project Manager / Developer
Technologies	React, TailWind, Firebase, Hostinger
